

Expand into a Higher Awareness of Healing...
Come to the

Healing Light Workshop

In this class we will discover and learn how to channel the powerful Healing Light energy through our hands and our minds in order to balance and heal ourselves and others (including animals and plants), either hands-on or long distance. We will also learn how to energize and clear food, water, your home, and other objects.

Your instructor is Dr. Nancy Stern, who discovered this system and will share with you this gift of healing.

The purpose of the Healing Light energy is to lift our body, mind, and spirit to a higher frequency, allowing healing and empowerment on all levels of our being.
