

Learn to channel the powerful energy of

Immortality

In this workshop Dr. Nancy Stern will teach how to channel and use an energy frequency she was inspired to name “Immortality”, a name aptly chosen because it promotes a youthening of the physical body and a sense of transcendence of the mortal limitations of time and space.

Participants will be attuned to this energy through guided meditation and practice sessions in which you will learn to heal yourself, others, and do group and long distance treatments. This energy can be used both hands on and off the body, and is effective in clearing and enhancing water, food, plants, animals, and one’s living space.
